CHOOSING YOUR STATIONERY

Please take a moment to browse the designs on the following pages.

I have tried to make choosing your stationery as straight-forward as possible ...

... find a design which you like (or design your own!) [see pages 3 - 10](#)

... co-ordinate your colours [page 16](#)

... choose your card [page 11](#)

... write your words

There is a check-list which you may find useful on the final page.

Send me your choices and I will email a proof of your stationery for your approval.

Please let me know if you have any questions or suggestions.

The Printing House specialises in embossing and foil printing - printing in metallic colours including gold and silver. Using engraved metal plates on a traditional cast-iron press this process produces a tactile, hand-finish and can be incorporated into the following designs. Foil printing is particularly effective on the textured cards shown on page 11.

Please ask for a price if you would like to use foiling or embossing to add an extra dimension to your stationery.
